

Bottle protector cross-section

Floor surface

(Dirt/Grass)

Sandpit (optional)

Sand/Soil/Hay

Grid

Buried 40–50 cm deep

Premium protection

(Minimum 30 cm)

Recommendation:

30 cm = basic protection

40–50 cm = protection against martens and expert diggers

Side panels connected to the bottom via mesh

Alternatively/additionally: base plate or mesh on the floor

Optional: separate digging box for natural digging
